

We have other issues to worry about other than trying to messwith IM radio.

I'm a customer and they have provided me with  
excellecent radio service that anyone has ever  
offer me.

I get to listen to music from international places  
and if you take this away, it seems like you are  
being racist.

Lets worry aboout issues other than this one!

Lets have peace and not hate!

Why?
